

Superior Technology, Security and Service Unleashed Technologies' Ashburn, Virginia Data Center

Unleashed Technologies' Ashburn, Virginia data center is strategically located near Washington, DC in the area known as, "Fiber Alley," one of the most dense regions of fiber carriers in the world. This location boasts not only superior connectivity, but the very latest in data center technology and multiple levels of security to guarantee your business critical data is highly available.

The Facility

Unleashed Technologies' Ashburn, VA data center is located in the RagingWire facility, which is:

- 150,000 square feet
- LEED Gold certified
- PCI-DSS compliant, SOC 2, Type II
- Within 30 minutes driving distance to Washington, DC
- Close to three major airports

Power

The patented power architecture at this data center can support ultra high power densities with 2N+2 redundancy (twice that of a typical Tier III data center). With Unleashed Technologies, you get:

- Primary and redundant power included
- Consumption-based, whipped power
- Scalability without requiring a server move

Security

This facility has some of the highest levels of security available, including:

- Biometric scanning
- 24x7x365 guard presence
- Kevlar reinforced construction
- Vent security
- Digital pan-tilt-zoom cameras monitoring all areas of the data center, including secure areas, parking lots, entrances and roof

With this level of security, including a seven-layer barrier to cabinet access, you can be assured that only authorized individuals gain access to your data.

Carrier-Neutral Network

Due to its central location in one of the world's busiest telecommunication hubs, Unleashed Technologies' data center offers:

- Blended carrier network with more than 14 carriers
- Gigabits of bandwidth availability over Tier I providers
- 99.999% guaranteed up time

Cooling

In keeping with best-practices for a green data center, this facility uses gray water and recycled air from the outside to assist in cooling. These practices reduce energy consumption while keeping the data center at optimal temperatures with hot/cold aisle containment.

Smart Hands Support

When you choose to host with Unleashed Technologies, you will receive the highest level of support, including:

- Troubleshooting and issue resolution performed by a highly technical team, including senior engineers
- Unmatched response times, supported by industry-leading SLAs
- 24x7x365 manned Network Operations Center (NOC)

Unleashed Technologies has the infrastructure, security and support you need to keep your business running smoothly. Don't just take our word for it - **contact us at 410-864-8980 or start@unleashed-hosting.com to schedule a data center tour today.**
