

# Serve Your Members and Fulfill Your Mission

Nonprofit organizations are not all created alike. Military focused nonprofit organizations, such as military and veteran associations, have unique missions and require firms that they partner with to understand those missions and fully support them.

## Benefit from Years of Experience with Military Nonprofits

Unleashed Technologies has extensive experience with military nonprofit organizations, establishing a comprehensive understanding of the driving mission for such organizations and what it takes to succeed. What does this mean for you? Your organization will benefit from our experience and understanding of the importance of mission as well as the activities and support military nonprofit organizations require to achieve results so that there is a shorter ramp to success. By working with Unleashed Technologies, you will:

- **Flexibility** - Change management forms are a thing of the past. As your project grows and changes, our agile team will adapt to support your needs.
- **Dependability** - You will be supported by dedicated web development, design, and hosting professionals so that your questions will be answered and any issues are quickly resolved.
- **Affordability** - Eliminate costly scope changes and budget your web management needs to meet your business goals.

## A Trusted Partner for Military Nonprofits

When you partner with Unleashed Technologies, you benefit from our extensive experience and expertise regarding the unique website and integration requirements for military nonprofit organizations' web presences. We offer a unique Support and Growth package model that ensures you have a predictable, sustainable budget with the resources and expertise your organization needs to grow without unexpected change management fees.

Facilitate deeper member engagement and improved online content management with Unleashed Technologies.

*“Unleashed Technologies committed to USNI on a bunch of different levels: they promised to bring new technology at a predictable rate, which was really important for us as a nonprofit; they made a commitment to really understand who we are as a business, our philosophy, and who we are in the military space; and helped to guide every design and development decision.”*
